coming... take a
first look.

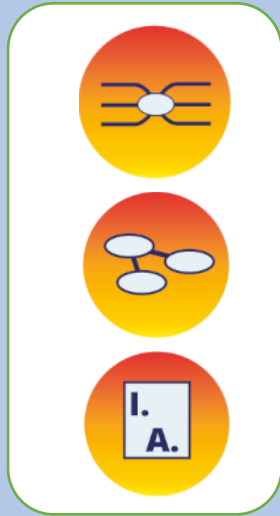

What are Visual Thinking Strategies?

“A method of combining visual cues such as symbols, images and colour, with verbal cues such as keywords and phrases; to organize information, identify relationships and generate new insight.”

Popular Visual Thinking Strategies

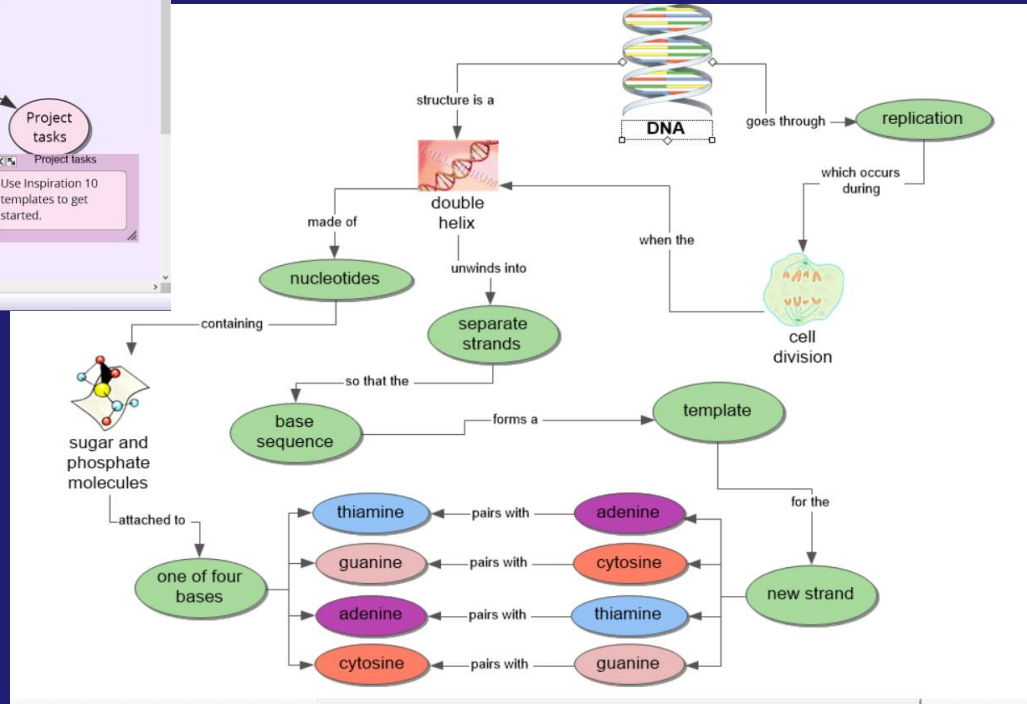

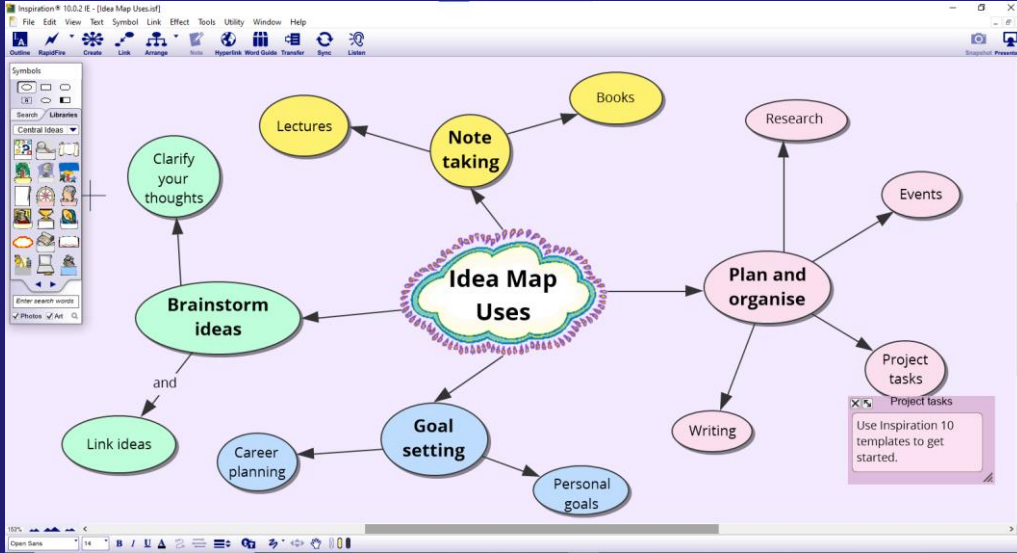

Mind Mapping

Concept Mapping

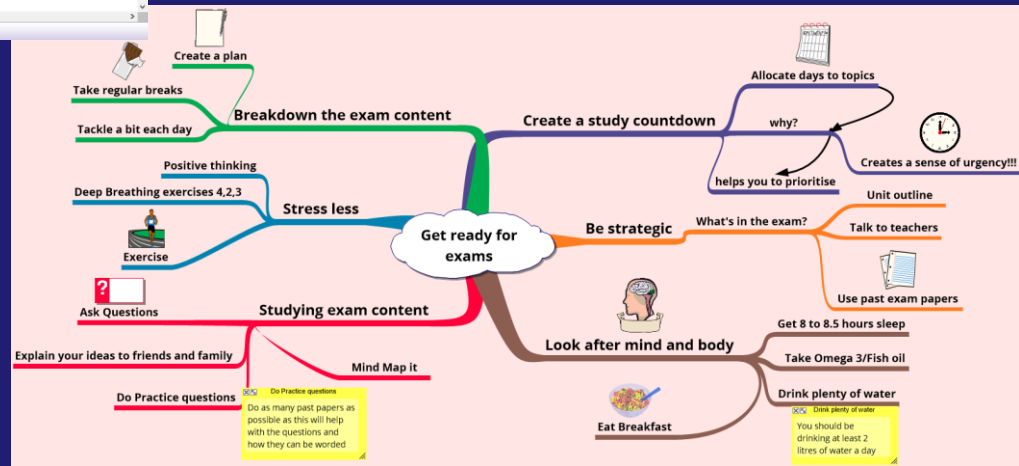

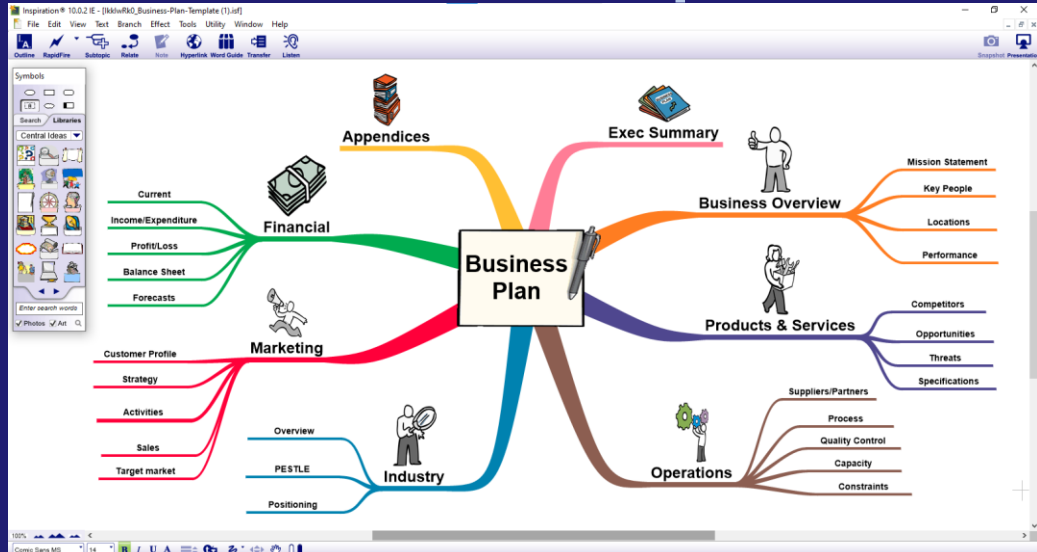

Outlining

Diagram View

- Free-form environment
- Highly customisable

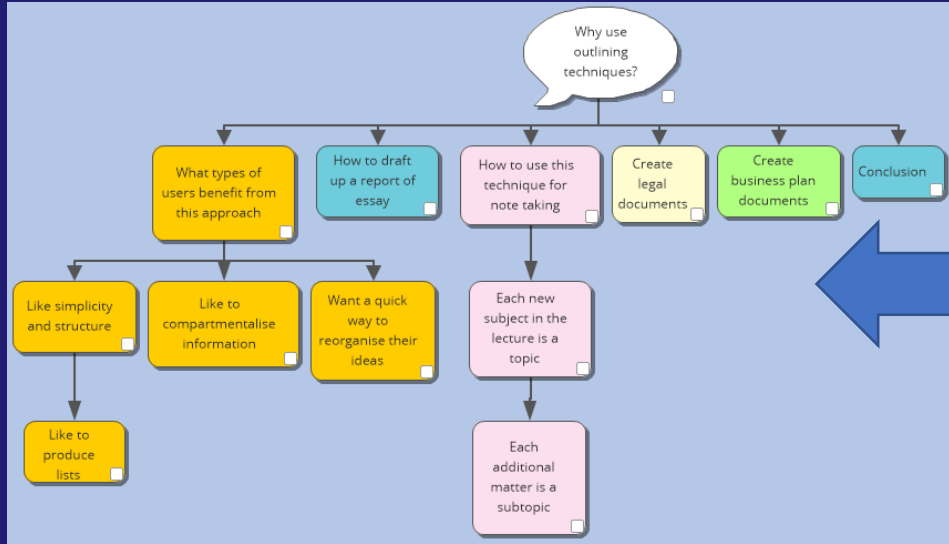

- Dedicated mind-map environment
- Quickly get started with a structure in place

Outline View

- Fully synchronised with your visual view
- Hierarchical structure

- Why use outlining techniques?**
Choose your topic and establish your purpose: To demonstrate how outlining techniques can help users to draft up the structure of essays and reports, as well as note take.
- A. What types of users benefit from outlining**
 - 1. Like simplicity and structure**
 - a. Like to produce lists
 - B. How to draft up a report or essay**
Place your title at the beginning and state purpose
Brainstorm main topics
Organise main ideas
Review and adjust
 - C. How to use outlining for note taking**
Prepare in advance by creating an outline before attending an outline
E.g. create main idea for each slide
Add keywords for each supporting topic
 - 1. Each new subject in the lecture as a topic**
 - a. Each additional matter is a subtopic
Use notes to expand on each point
 - D. Create legal documents**
 - E. Create business plan documents**
 - F. Conclusion**
 - 1. Restate points**
 - a. Summarise essay
 - 2. Concluding statement**
- Bibliography**
