Simplicity

A comprehensive set of tools in one simple toolbar, to help students understand, engage and express themselves

Across every device

Where can you
use Read&Write for
Windows?

Read, comprehend and write

Why Read&Write?

1. Boost your productivity
2. Deliver a richer learning experience for students

students expect a fully
optimised education
experience, from enrolment to
study, that is completely
digitised

the **complex task of reading**
is one of the most commonly cited reasons for
not completing a course

multiple options for access to learning & expression, and engagement

agency

Reading

read&write

Text-to-Speech

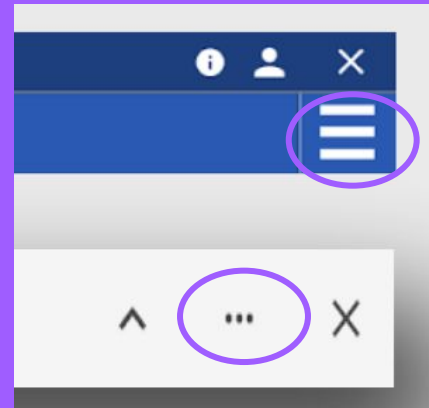

Screenshot Reader

Customise using the options menu

Personalise your Read&Write toolbar to suit you.

On a personal device or in Chrome version these will remain once set.

text to speech

relieves the burden of
decoding

focus on comprehension

reduce cognitive load

improve endurance and
completion

Research Folder

comprehension

voice typing

Let's review

Increased ownership through choice

- Students have tools to make content accessible, including in PDF.
- Students can read text aloud regardless of format or device.
- Students can create alternative formats such as MP3 files.

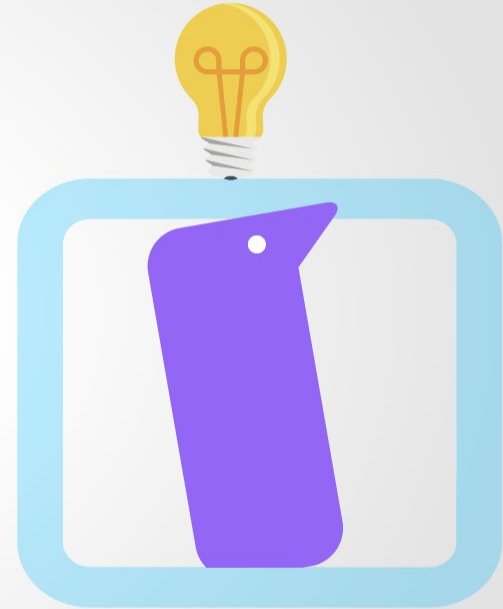

Student Growth and Improvement

- Student supports/ feedback
- Edit work with Text to Speech
- Use Voice Notes as personal memos
- Simplify web pages to reduce clutter (R&W for Google Chrome)
- Referencing styles (R&W for Windows)

Become Active Learners

- Use of highlighters across all documents
- Annotations on PDF's using OrbitNote
- Vocabulary List builder gather course specific vocab, glossaries of terms, etc
- Referencing styles support to assist with organisation

Experience Breeds Success

- Provides students digital tools to complete a variety of tasks
- Students choose features they need
- Across platforms, devices and low or not internet options

“Read&Write has changed the way I work. I actively use it to my advantage and have found more flexible ways to work. I am also in a more informed position when discussing the technology with students and I see their comfort levels increase when we talk about the fact both students and staff use this technology to their advantage.”

Michelle Gillard, Peer Programs

A woman with a warm smile is leaning over a table, interacting with two young boys in school uniforms. The boy on the left is looking towards the woman, while the boy on the right is partially visible in profile. The scene is brightly lit, suggesting a classroom or meeting environment.
