

The Neuroinclusion Project: Higher Education

About the project

Join us in creating a more inclusive higher education environment! The Neuroinclusion Project aims to support neurodivergent students and staff by developing resources and training modules for the university community.

How can you help?

If you're a neurodivergent staff or student, share your story!

Through a one-to-one online interview and/or an on-site filmed interview at Macquarie University

When?

July to August 2025

Participate
